1. Round 1

1.1. Reviewer 1

Reviewer: I appreciate your good job in writing the manuscript and your study. Indeed, a few revisions are suggested to improve the article and make it appropriate for publication.

Reviewer: This tool is described twice.

Response: Thank you for your comment. Corrected.

Reviewer: Where are the references?

Response: Thank you for your comment. Corrected.

Reviewer: Where is table 3?

Response: Thank you for your comment. Corrected.

Reviewer: Is it ANCOVA? MANCOVA? Mixed ANOVA?

Response: Thank you for your comment. Corrected.

1.2. Reviewer 2

Reviewer: It is a great manuscript. Your literature review is well-organized and you have used proper tools for measurements. Your work needs some crucial revisions before publication.

Reviewer: Shorten the introduction.

Response: Thank you for your comment. Corrected.

Reviewer: Write the methods and materials according to the guideline. See other articles and follow the structure.

Response: Thank you for your comment. Corrected.

Reviewer: Two experimental groups? You only have one but you are explaining about two experimental groups.

Response: Thank you for your comment. Corrected.

Reviewer: You should compare your whole with other studies in discussion.

Response: Thank you for your comment. Corrected.

2. Revised

Editor in Chief's (The editor) decision: Accepted.
